

Microsoft Azure Migration Professional Services - Sales Battlecard

Microsoft Azure Migration - Professional Services

Elevator pitch

Fly organisations to the cloud in 3 simple steps with Comms-care, the UK's Leading Channel-First Microsoft AMMP partner.

Customers who are considering transitioning workloads into Azure, should consider kickstarting their journey with Comms-care's free¹ Azure migration services) Our deep expertise will supercharge their Azure journey, complemented by funding options through Azure Migrate and Modernisation Program (AMMP), subject to acceptance. Having met rigorous standards, we're among the top tier of UK Microsoft partners trusted to lead organisations through the cloud modernisation program with confidence and excellence.

Marketing positioning

The partner opportunity with migration and modernisation:

Gartner estimates that cloud migration services represents a \$72.4 billion in market revenue opportunities worldwide. Customers across the globe only have 20 percent of workloads running in public clouds on average, indicating a huge opportunity for cloud market growth.¹

To help you seize this opportunity and accelerate your customers' digital transformation, leverage the Microsoft AMMP programme through Comms-care. We can help to simplify and accelerate the customer's migration journey and unlock recurring revenue opportunities.
